SUMMER SCHOOL ON BIOMOLECULAR STRUCTURE AND DYNAMICS

*Advances in NMR and
Computational Methods*

Otočec, Slovenia
June 22 – 29, 2003

<http://www.nmr.ki.si/school/school.htm>

Invitation

You are cordially invited to attend the Summer School on Biomolecular Structure and Dynamics to be held from June 22-29, 2003 at Otočec, Slovenia. Summer school is organized by Slovenian NMR Centre, Ljubljana, Slovenia as a part of EU Centre of Excellence project.

The purpose of the Summer School is to focus on the use of modern NMR techniques and computational methods in solving biomolecular structural problems. Prior knowledge of NMR principles and experience in experimental NMR spectroscopy is expected.

Venue

The school will be organized at Sport Hotel Otočec that is situated near Novo mesto, close to the interstate highway between Slovenia and Croatia. The area is rich in historical as well as cultural monuments. The hotel offers a wide variety of recreational facilities and is in the vicinity of the romantic medieval Castle Otočec situated on the island in the river Krka. Ljubljana and Zagreb airports are in the range of 60 km from venue. Shuttles will be provided for the transportation from and to the airports.

Program

The event will consist of invited lectures, workshops with student oral presentations and poster sessions. The Summer School is intended to cover areas of biomolecular NMR and molecular modeling such as: modern NMR methods, protein structure determination, dynamic aspects of biomolecules, protein folding and misfolding, restraints in paramagnetic proteins, structure of nucleic acids, molecular modelling, studies of interactions of small molecules-potential drugs to large biomolecules and theoretical aspects of NMR parameters.

Invited Speakers

F. Allain (ETH, Zürich), L. Banci (University of Florence), J. Barber (University of Manchester), H. Berendsen (University of Groningen), I. Bertini (University of Florence), G. Gemmecker (TUM, München), C. Griesinger (Max Planck, Göttingen), U. Günther (JWG University, Frankfurt), R. Haessner (TUM, München), H. Heus (University of Nijmegen), W. Jahnke (Novartis, Basel), W. Kozminski (University of Warsaw), H. Limbach (Freie Universität, Berlin), S. Macura (Mayo Clinic, USA), V. Malkin (University of Bratislava), N. Müller (University of Linz), K. Pervushin (ETH, Zürich), C. Redifield (University of Oxford), M. Sattler (EMBL, Heidelberg), W. van Gunsteren (ETH, Zürich), J. Waltho (University of Sheffield)

Registration fee

The registration fee of 500 € should be paid to Nova Ljubljanska Banka, Trg republike 2, SI-1000 Ljubljana, Slovenia (Acc. No. 01100-6030344533, Swift code: LJBASI2X) by April 30, 2003. The fee includes book of abstracts, hotel accommodation, full board, use of various recreational facilities and a local trip.

Stipends for students that will partially cover the registration fee will be available.

Deadline

Completed registration form, short curriculum vitae, bibliography and abstract of oral or poster presentation are expected to be received by organizer via mail, fax or e-mail before May 1, 2003.

Registration form can be downloaded from the school's home page.

Language

The official language of the Summer School will be English.
